

Junaiz Mohammed

UX/UI DESIGNER • PRODUCT DESIGNER

17+ years turning complex workflows into clear, human-centered digital products.

UX strategy • research • interaction • visual design • prototyping • design systems

Mangalore, India • +91 9742474761 • junaizmohammed@gmail.com • www.junaizmohammed.com

● PROFILE

01

Senior UX/UI and Product Designer with extensive experience across enterprise applications, complex workflows, dashboards, responsive products and design systems. I combine user research, interaction design and visual craft to make complicated products feel simpler and more purposeful.

● EXPERIENCE

02

NexTurn Senior User Experience Architect

May 2022 – Present

Remote | India

- Lead UX/UI design across enterprise products, partnering with product managers, engineers, stakeholders and customers.
- Design user journeys, workflows, dashboards, responsive interfaces, prototypes and design-system foundations.
- Use AI-assisted workflows for rapid exploration and high-fidelity UI prototyping.

BISPL / Bolas Intelli Solution Pvt. Ltd. Creative Lead

Nov 2017 – Apr 2022

Mangalore, India

- Led product and creative design initiatives, translating user feedback and business needs into usable digital experiences.
- Collaborated with teams and stakeholders throughout product-design delivery.

SourcePage Technologies Pvt. Ltd. Lead Designer

2015 – Dec 2016

Mangalore, India

- Led visual and interface design for web and mobile applications and coordinated implementation with cross-functional teams.

Essentially Precise Design Manager

2014 – 2015

Dubai, U.A.E.

- Developed information architecture, wireframes, prototypes, user flows and visual design across client engagements.

GlowTouch Technologies Senior Designer

Jul 2009 – Mar 2014

Mangalore, India

- Created web interfaces, usability-test plans and production-ready visual designs in collaboration with engineering.
